Math Practice - Grade 4

M3 Multiplication as comparison and multi step word problems - What the remainder means

M3 4.OA.A.1, 4.OA.A.2, 4.OA.A.3

Name: _____ Date: _____

Read the story. What does the remainder mean here? Write the answer the story asks for.

Example: Max has 17 stickers and puts 7 in each bag. How many stickers are left over?

How: A remainder can mean left over, full groups, or one more group. Read the question to see which one it asks for.

17 / 7 = 3

---

1 **Zoe has 94 crayons and puts 4 in each bag. How many crayons are left over?**

94 / 4 = ☐

---

2 **There are 51 children. Each bench seats 2 children. How many benches are full?**

51 / 2 = ☐

---

3 **There are 29 children. Each bench seats 6 children. How many benches are needed so every child has a seat?**

29 / 6 = ☐

Math Practice - Grade 4

M3 Multiplication as comparison and multi step word problems - What the remainder means

M3 4.OA.A.1, 4.OA.A.2, 4.OA.A.3

Name: _____ Date: _____

Read the story. What does the remainder mean here? Write the answer the story asks for.

Example: There are 21 children. Each bench seats 9 children. How many benches are full?

How: A remainder can mean left over, full groups, or one more group. Read the question to see which one it asks for.

21 / 9 = 2

---

1 **There are 24 children. Each bench seats 7 children. How many benches are full?**

24 / 7 = ☐

---

2 **Lily has 53 books and puts 2 in each bag. How many books are left over?**

53 / 2 = ☐

---

3 **There are 63 children. Each bench seats 4 children. How many benches are full?**

63 / 4 = ☐

Math Practice - Grade 4

M3 Multiplication as comparison and multi step word problems - What the remainder means

M3 4.OA.A.1, 4.OA.A.2, 4.OA.A.3

Name: _____ Date: _____

Read the story. What does the remainder mean here? Write the answer the story asks for.

Example: There are 82 children. Each bench seats 7 children. How many benches are full?

How: A remainder can mean left over, full groups, or one more group. Read the question to see which one it asks for.

82 / 7 = 11

---

1 **Ruby has 46 buttons and puts 8 in each bag. How many buttons are left over?**

46 / 8 = ☐

---

2 **Lily has 94 marbles and puts 3 in each bag. How many marbles are left over?**

94 / 3 = ☐

---

3 **Liam has 75 cookies and puts 8 in each bag. How many cookies are left over?**

75 / 8 = ☐
