Math Practice - Grade 4

M6 Multi digit division with remainders - Long division with remainders

M6 4.NBT.B.6

Name: _____ Date: _____

Divide. Write the quotient and the remainder.

Example: Divide. Write the quotient and the remainder.

How: Divide the largest place first. Bring down the next digit and repeat. The remainder must be smaller than the divisor.

$$2\overline{)1609} = 804 \text{ R } 1$$

1

$$3\overline{)1057} = \square\square\square \text{ R } \square$$

2

$$2\overline{)227} = \square\square\square \text{ R } \square$$

3

$$8\overline{)5910} = \square\square\square \text{ R } \square$$
