Math Practice - Grade 8

M12 Bivariate data - Pick the line that fits the data best

M12 8.SP.A.1, 8.SP.A.2, 8.SP.A.3, 8.SP.A.4

Name: _____ Date: _____

Read the three scatter plots. Circle the line that fits best: A, B, or C.

Example: Which line fits the data best?

How: The best fit line follows the middle of the cloud of points, with about as many points above it as below it, and it follows the direction of the points.
